

REINING ALBERTA

Reining Alberta Performance Program “RAPP”

1. What is the Reining Alberta Performance Program “RAPP”?

RAPP is a local breeding program designed to enhance the former Reining Alberta Sire Incentive Program. The goal is to increase participation and purses. The program was expanded to allow any foal to be nominated to the program according to the fee schedule below. Foals sired by enrolled Stallions will be eligible for nomination in to the program at **significantly reduced rates**. The goal is to continue to promote the local stallions and have a program that will also benefit local breeders who chose to breed to other stallions.

2. What are the benefits of the program?

For an enrollment fee of \$500 all offspring of enrolled Stallions are eligible to enroll in the Performance Program at significantly reduced rates. Help promote your Stallion with enrollment in this prestigious program.

The nomination fee from your stallion is allocated 33/33/33% between the 3-year-old, 4-year-old classes and recently added to the program, 5/6/7 year old classes. There is a \$500 Sire Award to the highest placing Sire Incentive Offspring in the Open Level 4 Futurity & Open Level 4 Maturity.

IN ADDITION, entry fees will be 5% of the added (far less than a normal class) AND 95% of the entry will fee will be added directly to the purse!

3. How do I nominate my foal?

You must be a current Reining Alberta Member to nominate your foal. Nomination forms with a copy of the breed registration (if available) will be due by November 30, 2019. Foals can be marked as “pending until breed registration papers are received. Please forward a copy to the Reining Alberta office when they become available.

The Reining Alberta Performance Program is the fastest growing incentive program in Western Canada, if not all of Canada. The 2020 4 year old Derby and the new 5/6/7 year old Derby class will have \$16000 in added money to kick off the 2020 show season and the 3 year old Futurity will have \$7200 to close off our show season.
